For more information, visit <https://www.sfparatransit.com/shop-a-round>.

Slow Streets Program

In order to support further reopening of the economy, we need to make San Francisco more welcoming and accessible for people who want to travel on foot, bicycle, wheelchair, scooter, skateboard or other forms of micromobility. Slow Streets are critical infrastructure that attracts users of the full array of neighborhood demographics—including children, older adults, people with disabilities and people of color.

- Streets are not closed completely and local vehicle access is allowed (e.g., driveway access for residents).
- Slow streets are shared streets, all users must give way to others as appropriate. People walking/running/biking do not have exclusive right-of-way over motor vehicles.
- Once installed, Slow Streets corridors will be in effect 24/7.

The SFMTA will continue to monitor the use of Slow Streets to minimize impacts on surrounding streets and welcome feedback from the community. Below is a list of slow streets already implemented:

- 20th Avenue from Lincoln Boulevard to Ortega Street
- 20th Street from Valencia Street to Potrero Avenue
- 23rd Avenue from Lake to Cabrillo streets
