ONGOING: L Taraval Improvement Project

The SFMTA is leading a multi-agency collaboration with the San Francisco Public Works (SFPW) and the San Francisco Public Utilities Commission (SFPUC) to replace and rehabilitate the aging infrastructure along Taraval Street. The [L Taraval Improvement Project](#) will replace worn rails, overhead wires, water, and sewer lines and repave the entire street along the L Taraval Line, from West Portal to the SF Zoo to make pedestrian crossing safer, increase accessibility and improve transit reliability.

Work to replace and upgrade track, sewer and water lines will require substantial construction and occasional detours along Taraval Street.

Segment B work has begun starting at Sunset Boulevard to West Portal.

To improve safety, 10 new transit boarding islands and five new high-level accessible platforms will be installed in Segment B work. Three existing transit boarding islands will be extended. The comprehensive transit and pedestrian safety features will enhance the safety of passengers getting on and off Muni and make the L Taraval Line more reliable.

Construction is scheduled to take place from 8 a.m. to 5 p.m., Monday through Friday.

For additional project details, visit [SFMTA.com/LTaraval Project](https://www.sfmta.com/LTaravalProject). For project updates of work for the weeks of March 16 through April 2, 2022, visit [www.sfmta.com/L-Taraval Improvement Project](https://www.sfmta.com/L-Taraval-Improvement-Project).

ONGOING: Castro Westbound Platform Elevator Closed for Upgrades *continued*

The SFMTA is committed to continuously improving safety and reliability for all Muni customers even during the COVID-19 pandemic. The Castro elevator is the eighth of 12 being rehabilitated systemwide as part of the [Muni Elevator Improvement Project](#). The project will greatly improve accessibility and convenience, especially for wheelchair users, seniors, and others with disabilities who benefit from elevator access.

For information on alternative Castro elevator service, visit [SFMTA.com/Elevator](https://www.sfmta.com/Elevator).

ONGOING: 19th Avenue (CA Route 1) Combined City Project

San Francisco Public Works is leading a multi-agency project to replace aging infrastructure and improve safety along 19th Avenue between Holloway Avenue and Lincoln Way.

Construction work for the first segment of this project along 19th Avenue between Lincoln Way and Noriega Street has begun.

As part of the [19th Avenue Combined City Project](#), the SFMTA will implement transit priority and safety improvements for people walking along the route of the 28 19th Avenue. The improvements will make it safer to walk, remove stops to make transit service more reliable, and enhance customers' experiences—on and off the bus.

To improve safety along 19th Avenue, the SFMTA will: **1)** install pedestrian bulbs at 19 intersections and transit bulbs at 13 intersections; **2)** modify traffic and pedestrian signals to give people who walk more time to cross the street; and **3)** extend the bus zone at one intersection. Installing transit bulbs allow Muni vehicles to stop for passengers without having to pull out of traffic, and pedestrian bulbs increase the visibility at intersections of people who walk.

As part of the project, seven Muni stops were removed on 19th Avenue between Irving Street and Ocean Avenue last October. **The following Muni routes have been affected with the stop removal:**

- **28 19th Avenue**
- **91 3rd Street/19th Avenue Owl**

To find additional information about the transit reliability and pedestrian safety components, visit [sfmta.com/28Rapid](https://www.sfmta.com/28Rapid). For overall project information, visit [sfpublicworks.org/19th-Avenue](https://www.sfpublishworks.org/19th-Avenue).
