

J Church Safety and Accessibility Project San Jose Avenue

Spring 2023

Overview

- Project overview and goals
- What we've heard so far
- Proposals
- Outreach timeline and next steps

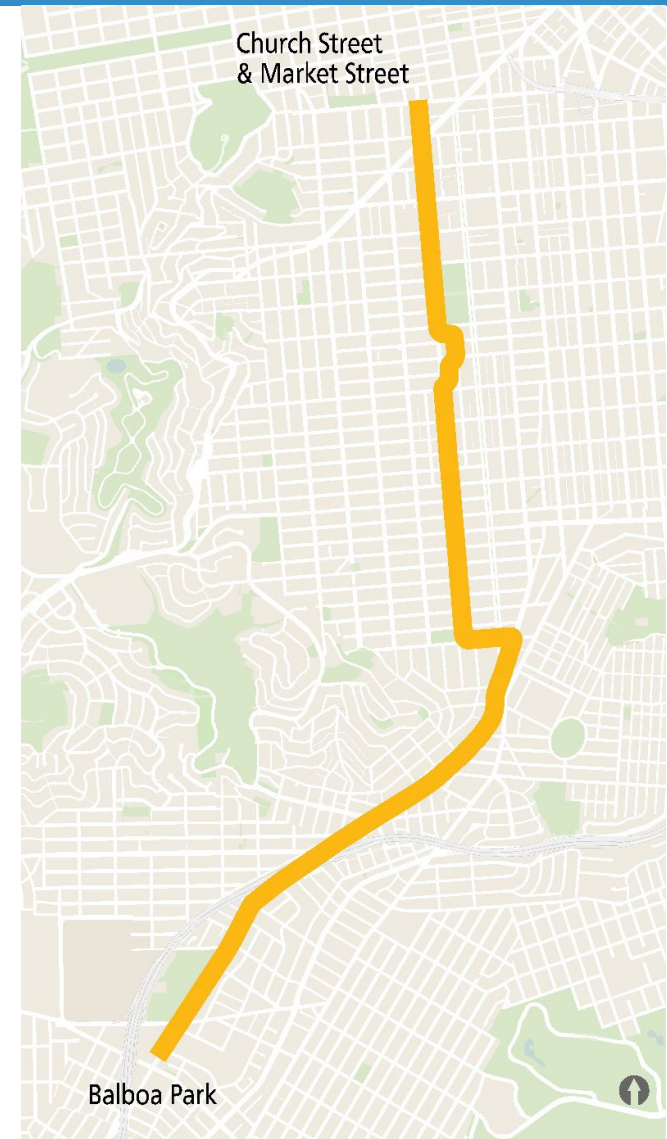

Project overview and goals

Overview

- Three project segments
 - Market/Church
 - Church Street – Noe Valley
 - San Jose Avenue

Project goals

- Improve reliability on the J Church
- Improve safety, access and comfort at J Church stops on San Jose Avenue, and on Church Street
- Address traffic safety concerns along San Jose Avenue

What we've heard so far

- Transit reliability concerns
- Traffic and pedestrian safety concerns

Proposals

- Transit lanes
- Stop improvements – extending stops that are too short
- New wheelchair-accessible transit stops
- Rapid flashing beacons
- Pedestrian bulbs
- Daylighting

Proposal: Transit Lanes on San Jose Avenue

Proposal: Extend boarding islands

Proposal: Wheelchair-Accessible Stops

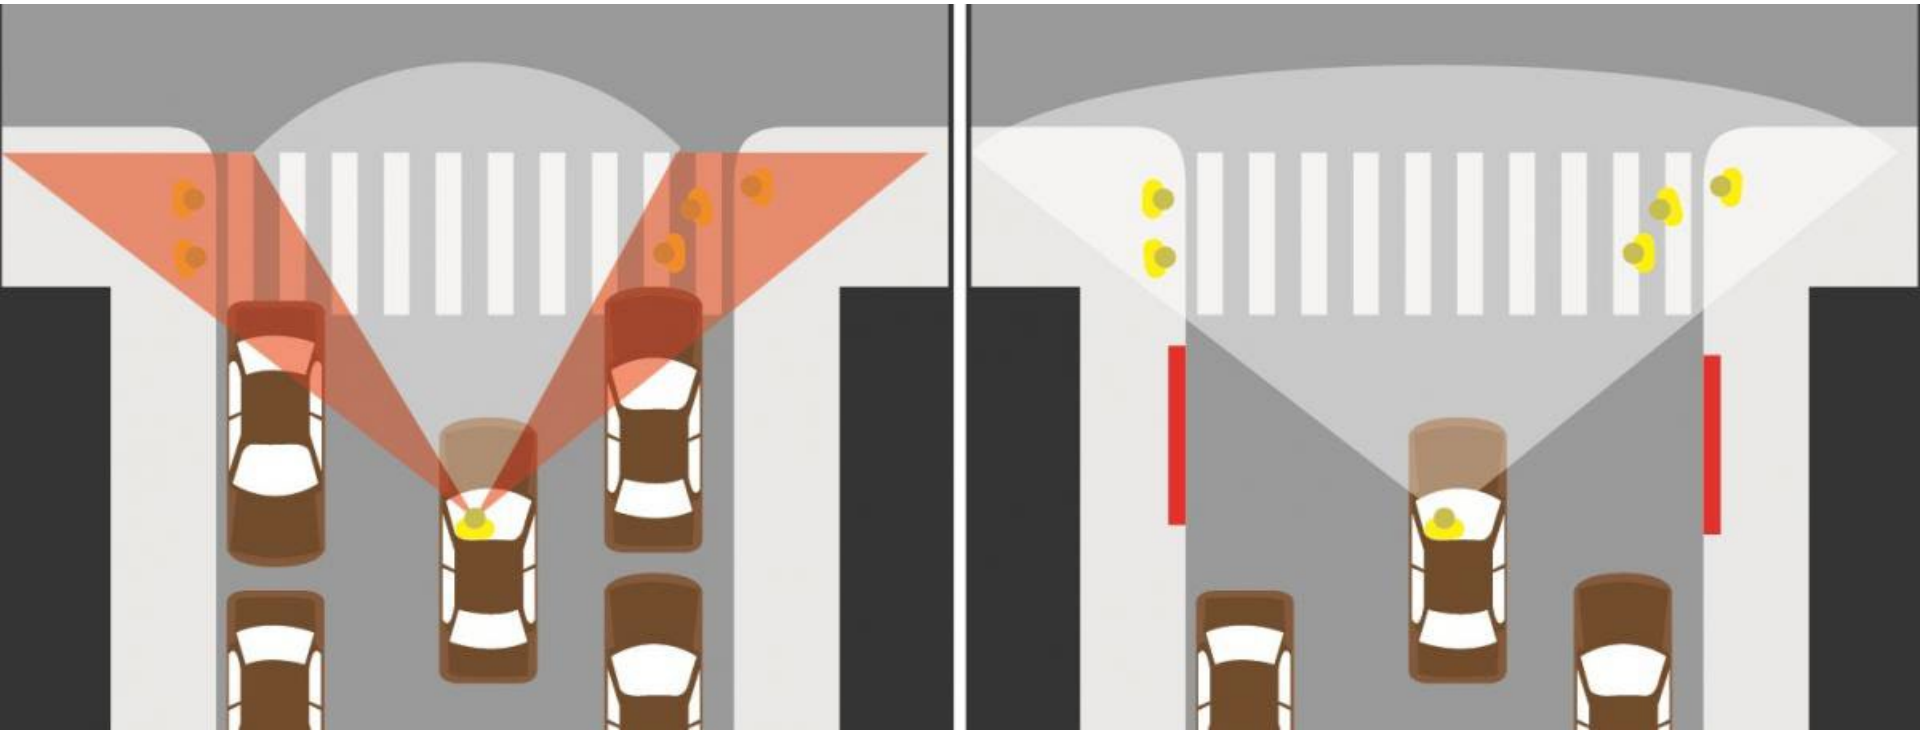

Proposal: Rapid Flashing Beacon

Proposal: Pedestrian Bulbs

Proposal: Daylighting

Timeline for the Project

Late 2022 through Spring 2023

- Targeted presentations to community-based organizations and leaders to introduce project and collect community feedback
- Internal discussions and feedback to adjust designs

Summer 2023

- Public hearing to present final proposals to community
- Proposal to approve the project scope by SFMTA Board of Directors

Fall 2023

- Pending Board approval, implement quick-build elements of the proposal

Mid 2025

- Implementation of full capital elements including boarding islands, accessible stops and bulbs
