SFMTA OVERVIEW

STRATEGIC PLAN

The San Francisco Municipal Transportation Agency (SFMTA) Fiscal Year (FY) 2013 to Fiscal Year 2018 Strategic Plan was approved by the SFMTA Board on January 13, 2012 and sets the direction for the Agency over the next six fiscal years.

The development of this Strategic Plan is the first attempt to integrate and create consistency with all the plans the Agency develops or contributes to. This integration is a first for the Agency and forms the basis for ensuring that the FY2015 and FY2016 two-year capital and operating budgets support the strategic goals and objectives. Once these capital and operational budgets are approved, each division within the Agency will use the budgets to prioritize work products and include performance measures for each employee through a performance evaluation plan. Each division will have a unique role to play and lead elements of the Strategic Plan. This framework provides a continuous link from the employee to Agency policy to ensure consistency and accountability at all levels.

The framework for this new plan focuses on a new vision and mission for the Agency and the goals and objectives needed to achieve this vision. The development of strong strategic goals and objectives with specific targets and timeframes guides SFMTA divisions to develop and own initiatives and actions as part of the two-year budget.

Strategic Plan elements are as follows:

- **Vision:** San Francisco: great city, excellent transportation choices
- **Mission:** The SFMTA plans, designs, builds, operates, regulates, and maintains one of the most diverse transportation networks in the world. In addition to the four modes of transportation (transit, walking, bicycling and driving, which includes private vehicles, taxis, carsharing, on-and off-street parking and commercial vehicles), the Agency directly oversees five transit modes (bus, trolley bus, light rail, historic streetcar, and cable car), in addition to overseeing paratransit service, which serves individuals unable to use fixed-route transit service.
- **Goals:**
 1. Create a safer transportation experience for everyone. The safety of our system, its users, and our employees is of the utmost importance to us. Creating a safer transportation experience for everyone means a secure and comfortable system for users of all transportation modes and SFMTA programs, as well as safe facilities, vehicles and areas in which to work.
 2. Make transit, walking, bicycling, taxi, ridesharing, and car sharing the preferred means of travel. The SFMTA is committed to making non-private auto modes of transportation not just a viable option, but the preferred means of travel in San Francisco.

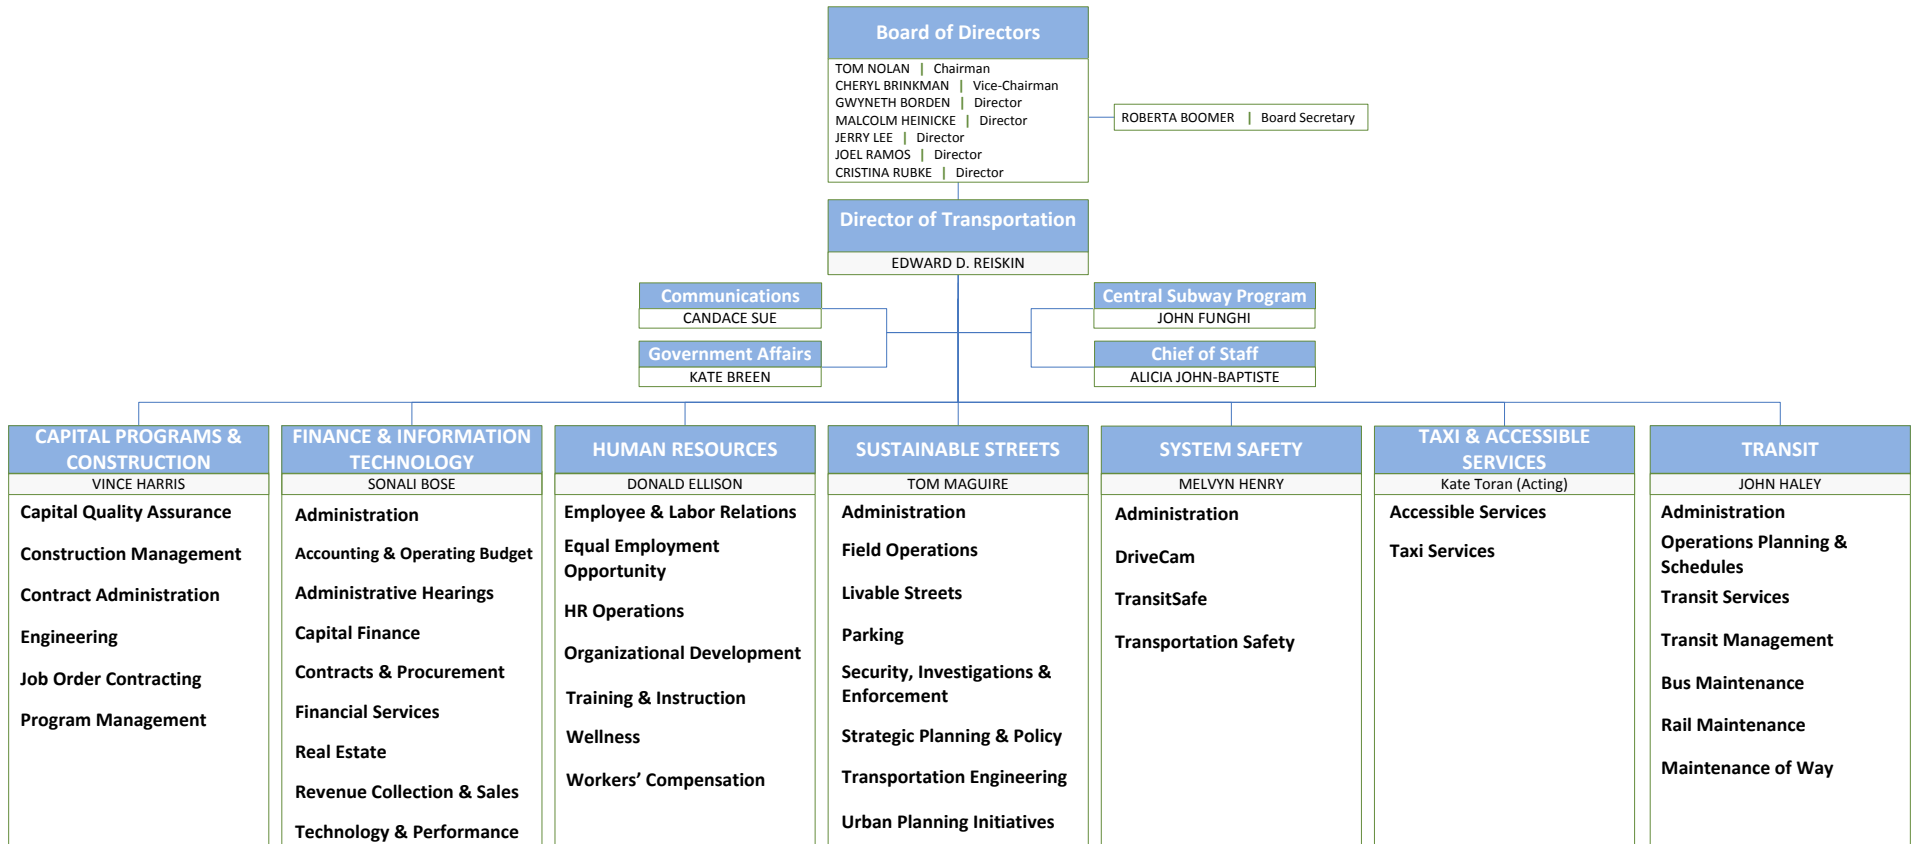

3. *Improve the environment and quality of life in San Francisco.* One of the keys to a good quality of life is access to a green, clean, efficient, affordable, and cost-effective transportation system. With the inclusion of this goal in the Strategic Plan, the SFMTA is committed to understanding the needs of those that use the system. We will allocate our resources more effectively and reduce our structural deficit while maintaining a transportation system that will provide more reliable connectivity for people and businesses.

4. *Create a workplace that delivers outstanding service.* The creation of the SFMTA in 1999 combined Municipal Railway and the Department of Parking and Traffic into one transportation agency. With the addition of the Taxi Commission ten years later, the SFMTA is in the unique position of directing the entire transportation system in San Francisco. However, the combination of these once separate entities has also challenged us to come together as one agency to create a range of excellent transportation choices. In order to deliver outstanding services, the SFMTA must create a collaborative and engaging work environment that trains, encourages, and supports its staff at all levels, while holding each other and the Agency accountable.

CITY CHARTER PROVISIONS

Creation

The San Francisco Charter, amended through the Proposition E and A which were approved by the voters in 1999 and 2007 respectively, established the San Francisco Municipal Transportation Agency (SFMTA) as a separate agency of the City and County of San Francisco. The Municipal Railway, Sustainable Streets (previously named as Parking and Traffic), Parking Authority, and Taxi Service make up the SFMTA. The Charter stated goals for the SFMTA is to “manage San Francisco’s transportation system - which includes automobile, freight, transit, bicycle, and pedestrian networks” to help the City achieve an “effective, efficient and safe transportation system.....” to support “its goals for quality of life, environmental sustainability, public health, social justice and economic growth”. Specifically, the Charter provides SFMTA with a level of governance; financial, operating, and administrative independence; and authority to manage its employees and to establish efficient and economical work rules and work practices to maximize responsiveness to public needs.

Governance

SFMTA is governed by 7 directors who may serve 2 year terms and who are appointed by the Mayor and confirmed after public hearing by the Board of Supervisors. At least four of the Directors must be regular riders of public transit and must continue to be regular riders during their terms. The directors must possess significant knowledge of or professional experience in, one or more of the fields of government, finance, or labor relations. At least two of the directors must possess significant knowledge of, or professional experience in, the field of public transportation. During their terms, all directors are required to ride the system on the average of once a week.

Service Standards

The Charter includes minimum standards for on-time public transit performance and service delivery standards for MTA as follows:

- “1. On-time performance: At least 85 percent of vehicles must run on-time, where a vehicle is considered on-time if it is no more than one minute early and four minutes late as measured against a published schedule and includes time points; and
2. Service delivery: 98.5% of scheduled service hours must be delivered, and at least 98.5 percent scheduled vehicles must begin service at scheduled time.”

BUDGET PROCESS

The City Charter requires that SFMTA must submit a two-fiscal year budget in even-numbered years and it may submit budget amendments for the second fiscal year in odd-numbered years. SFMTA's budget must be presented to the Citizen's Advisory Council (CAC) and the public for review and comment. No later than May 1st of each even-numbered year, the proposed budget must be submitted for each of the next two fiscal years to the Mayor and Board of Supervisors. As long as SFMTA stays within the revenue formulas outlined in the Charter, and does not ask for additional General Fund resources or support, the Mayor must forward the budget to the Board of Supervisors as submitted. The Board of Supervisors may allow the SFMTA's budget to take effect without any action or its part or may reject the budget in its entirety by a seventh-eleventh's vote. Additionally, by May 1st of each odd-numbered year, the SFMTA can submit any budget amendment for the second year of the two-year budget to the Mayor and the Board of Supervisors. Finally, the SFMTA can move funds within its budget and hire personnel as long as SFMTA remains within its budget as deemed by the City Controller.

THE CITY BUDGET GUIDELINES

Budget Structure

SFMTA's budget is developed as a line item budget and is organized into sub-funds and index codes, which indicate where in the department the funds are allocated, and object and subobject codes, which indicate what type of expenditure is included. The budget is also organized by divisions to indicate the Agency's organizational responsibility.

Positions

COLAs/Labor Agreements/Equity Adjustments. As codified in the San Francisco Charter, the approved budget must contain funding to pay for all anticipated or estimated salary adjustments provided in employee Memorandum of Understanding (MOUs), cost of living adjustments (COLAs), and any other pay equity adjustments.

Annualization of Existing Positions. Positions that were added in the previous year's budget must be annualized at a full 1.0 full time equivalent (FTE) position from the previously budgeted partial position (see *New Positions* and *Other adjustments* below). The incremental costs associated with these positions must also be budgeted.

New Positions. New positions are prorated to reflect the portion of the year the position will be on payroll. The default is to budget new positions at .77 of a full time position, as the recruitment process takes an average of three months.

Attrition Savings. It is anticipated that normal departmental attrition results in savings. Attrition savings reflects cost savings from vacant or unfilled positions. It also includes positions that are not funded in a particular year. Attrition Savings appear in the budget as negative position count, which is netted against the total positions in the budget. Thus, the total position FTE count in budget reflects the net funded positions for the department.

Other adjustments. Other salary adjustments included in position expenditure budget are those to compensate for a year that has 260, 261 or 262 workdays, for automatic step adjustments, and for positions that are not at top salary step. In addition, salary annualization costs represent the cost of wage adjustments that took place during the prior year.

Fringe benefits. Fringe benefits include health care for active and retired employees, social security and Medicare contributions, City retirement contribution, City-paid employee retirement contributions (City pick-up), and other benefits provided in employee MOUs.

Terms

Platform. The term "platform" refers to the 9163 Transit Operator classification.

Miscellaneous. When used in reference to employees, the term "miscellaneous" applies to all non-Transit Operator classifications.

BUDGET OVERVIEW

BUDGET OVERVIEW

OPERATING BUDGET OVERVIEW

The SFMTA 2014-2015 (FY 2015) and 2015-2016 (FY 2016) Adopted Operating Budgets are presented in further detail in the following pages. The table below summarizes the revenue and expenditure budget adopted for FY 2015 and FY 2016 in comparison to FY 2014 Amended Budget.

Budget Category (in millions)	FY 2014 Amended Budget	FY 2015	FY 2016
Total Revenue	\$851.1	\$945.2	\$963.2
Total Expenditure	\$851.1	\$945.2	\$963.2

Adopted Operating Budget for FY 2015 totals to \$945.2 million and is \$94.1 million or 11.06 percent higher compared to FY 2014 Amended Budget. Adopted operating budget for FY 2016 is \$963.2 million and is \$18.0 million or 1.9 percent higher than adopted operating budget in FY 2015.

The focus of this two-year Operating Budget is twofold. First, to add transit service based on the Transit Effectiveness Project recommendations, and second, to address affordability concerns based on recent information on our ridership that indicates more than half of Muni riders are low income.

In recognition of ridership demand, the Operating Budget includes a 3% transit service increase in FY 2015. To support affordability goals, the two-year Operating Budget continues the Free Muni for Low and Moderate Income Youth program funded through a gift from Google. Additionally, the SFMTA Board of Directors approved expanding the Free Muni for Low and Moderate Income Youth program to include 18-year-olds, 19 to 22 year old students enrolled the San Francisco Unified School District’s (SFUSD) Special Education Services Program and delaying the indexing (fare increase) for discount passes and discount cash fare until FY 2016.

As a result of the strong economy, our budget balancing process was made easier by increased General Fund revenue projections and state operating funds. The budget includes a January 2015 fiscal review of the Agency at which time the SFMTA Board will consider whether or not to pursue an additional 7% transit service increase in FY 2016, additional funding for transit fleet appearance and cleanliness, free Muni for low and moderate income seniors and disabled riders as a pilot program and elimination of transaction fees for payments via telephone or web. The SFMTA Board has directed advancement and prioritization of the free Muni for low and moderate income seniors and disabled riders pilot program as part of that review process.

In addition, the FY 2015 and FY 2016 Operating Budget includes the following:

- Increasing Muni passport prices, which are usually purchased by visitors, between \$2-\$5 (above indexing formula amount)
- Increasing the A pass (allows unlimited use of BART in San Francisco in addition to Muni) differential above indexing by \$2 over the current \$10 premium over the M (Muni only) pass
- Creating a single transfer policy for all connecting agencies for riders that use Muni and another system
- Implementing the SFMTA Board's approved Automatic Indexing and Cost Recovery Policy calculations for various fares, fees, fines, rates and charges
- Eliminating enforcement of parking meters on Sundays
- Funding communication, technology and safety efforts
- Using reserves available above the Board adopted rainy day reserve level
- Keeping work orders to-date essentially flat compared to FY 2014
- Funding certain capital projects from local fees and operating sources

Also embedded in this two-year Operating Budget are reductions in several areas including worker's compensation, claims, contracts, and materials and supplies. The need to fund our rainy day reserve is not included in the FY 2015 and FY 2016 Budget as the reserve is currently at the 10% SFMTA Board approved level.

BUDGET OVERVIEW

REVENUES

The FY 2015 and FY 2016 Operating Budgets include revenues from transit fares, operating grants, parking and traffic fees and fines, and other revenues such as advertising, interest income, taxi fees, and miscellaneous service fees. The budget also includes General Fund support under the provisions of the City Charter, which requires the General Fund base amount to be adjusted each year by the percentage increase or decrease in the aggregate City and County discretionary and unrestricted revenues.

The table below summarizes the revenues for FY 2014 Amended Budget and the FY 2015 and FY 2016 Adopted Budget.

Federal Section 5307 Funds is allocated annually to fund primarily ADA Paratransit operating services. In FY 2015 and FY 2016, the fund is transferred and budgeted directly in MUNI grants fund 5MAGTFED.

Revenues from AB 1107, a regional sales tax measure, are generated by the 1/2¢ sales tax levied for Transit in Alameda, Contra Costa, and San Francisco Counties. The revenue is allocated by MTC based on actual and projected sales tax revenues within the three counties.						
49101	TDA SALES TAX-OPERATING	34,680,000	38,000,000	39,530,000	3,320,000	1,530,000
Established under the state Transportation Development Act of 1972, local transportation funds (LTF) revenue is derived from a one-quarter cent of the State's current sales tax collected in San Francisco. Changes in LTF receipts are mostly due to varying economic conditions affecting annual LTF revenue. Fluctuations also occur due to the allocation procedure, where funds for one fiscal year will be based upon taxable sales estimates made during the previous fiscal year. Any difference between the actual taxable sales and the estimated taxable sales is then compensated through adjustments to the following year's allocation.						
49102	SF TRANSPORTATION AUTHORITY	8,000,000	8,160,000	8,280,000	160,000	120,000
San Francisco voters approved a one-half cent sales tax increase in November 1989 to help finance a 20-year Transportation Expenditure Plan (Proposition B). Proposition B was superseded by Proposition K which was passed by San Francisco voters in November 2003. Proposition K is limited to capital projects. However, Prop K grandfathered operating uses originally funded in Proposition B and as a result the SFMTA receives an annual allocation for its Paratransit operating services.						
49103	BART ADA	1,000,000	1,020,000	1,040,000	20,000	20,000
BART reimburses MTA for Paratransit services provided in BART corridors. As determined under the American with Disabilities Act (ADA), BART's reimbursement to Muni is calculated at 7.9% of actual Paratransit contract expenditures less Paratransit fare revenues and any state funding.

<p>On March 2, 2004, voters passed Regional Measure 2 (RM2), raising the toll on the seven State-owned toll bridges in the San Francisco Bay Area by \$1.00. This extra dollar funds various transportation projects within the region that have been determined to reduce congestion or to make improvements to travel in the toll bridge corridors, as identified in SB 916 (Chapter 715, Statutes of 2004). Specifically, RM2 establishes the Regional Traffic Relief Plan and identifies specific transit operating assistance and capital projects and programs eligible to receive RM2 funding. This appropriation reflects the operating assistance fund that the SFMTA receives annually for its Third Street Rail line operations and for the Owl Bus Service on the BART corridor. The budget increase in FY 2015 and FY 2016 is based on the actual revenues received in FY 2014 and on projections.</p>

The San Francisco Employees' Retirement System is funded on a cost-sharing basis with a combination of employee contributions, employer contributions, and investment earnings from the retirement fund. This line item reflects the cost of contributions the City makes as the employer to the retirement fund for positions budgeted in this organizational area, including any pick-up portions of the employee retirement contribution based on established labor agreements.

Reviewed and approved by the Retirement Board, the FY 2015 and FY 2016 employer contribution is set in three tiers with different maximum salary rate thresholds resulting in different retirement rates to be paid by the city. The employer contribution rate for majority of the Miscellaneous Employee unions falls within the middle tier of 22.43% of the annual salary cost in FY 2015 and 19.48% in FY 2016.

014	SOCIAL SECURITY	127,465	166,941	189,366	39,476	31.0%	22,425	13.4%
-----	-----------------	---------	---------	---------	--------	-------	--------	-------

This appropriation funds mandatory employer contributions for Social Security benefit, with 6.20% for Social Security and 1.45% for Medicare.

-----	----------------	---------	---------	---------	--------	-------	--------	-------

The City Charter establishes an employer contribution to the Health Service Trust Fund that covers health insurance costs for current and retired City employees and their dependents. The contribution rates are reviewed and determined each year by the San Francisco Health Service Board. The FY 2015 and FY 2016 health benefit cost paid by SFMTA is close to 26% of the FTE-based annual salary cost.

016	DENTAL COVERAGE	24,836	29,578	34,485	4,742	19.1%	4,907	16.6%
-----	-----------------	--------	--------	--------	-------	-------	-------	-------

Like the health benefit, the City Charter requires employer's contribution to cover dental insurance costs for current and retired City employees and their dependents. The rate is reviewed and determined annually by the Health Service Board. Dental cost per employee paid by SFMTA annual budget averages \$1,503 per employee in FY 2015 and \$1,542 in FY 2016.

017	UNEMPLOYMENT INSURANCE	4,410	5,714	7,003	1,304	29.6%	1,289	22.6%
-----	------------------------	-------	-------	-------	-------	-------	-------	-------

Mandated by the State of California, the City must budget for unemployment insurance coverage. The rate is set as a percentage of the annual salary cost, with 0.25% for FY 2015 and 0.27% for FY 2016.

The San Francisco Employees' Retirement System is funded on a cost-sharing basis with a combination of employee contributions, employer contributions, and investment earnings from the retirement fund. This line item reflects the cost of contributions the City makes as the employer to the retirement fund for positions budgeted in this organizational area, including any pick-up portions of the employee retirement contribution based on established labor agreements.

Reviewed and approved by the Retirement Board, the FY 2015 and FY 2016 employer contribution is set in three tiers with different maximum salary rate thresholds resulting in different retirement rates to be paid by the city. The employer contribution rate for majority of the Miscellaneous Employee unions falls within the middle tier of 22.43% of the annual salary cost in FY 2015 and 19.48% in FY 2016.

This line item reflects the cost of contributions the City makes as the employer to the retirement fund for positions budgeted in this organizational area, including any pick-up portions of the employee retirement contribution based on established labor agreements.

Reviewed and approved by the Retirement Board, the FY 2015 and FY 2016 employer contribution is set in three tiers with different maximum salary rate thresholds resulting in different retirement rates to be paid by the city. The employer contribution rate for majority of the Miscellaneous Employee unions falls within the middle tier of 22.43% of the annual salary cost in FY 2015 and 19.48% in FY 2016.

014	SOCIAL SECURITY	2,959,559	2,845,811	2,970,768	(113,748)	-3.8%	124,957	4.4%
-----	-----------------	-----------	-----------	-----------	-----------	-------	---------	------

This appropriation funds mandatory employer contributions for Social Security benefit, with 6.20% for Social Security and 1.45% for Medicare.

015	HEALTH SERVICE	6,074,075	5,288,519	5,421,405	(785,556)	-12.9%	132,886	2.5%
-----	----------------	-----------	-----------	-----------	-----------	--------	---------	------

The City Charter establishes an employer contribution to the Health Service Trust Fund that covers health insurance costs for current and retired City employees and their dependents. The contribution rates are reviewed and determined each year by the San Francisco Health Service Board. The FY 2015 and FY 2016 health benefit cost paid by SFMTA is close to 26% of the FTE-based annual salary cost.

016	DENTAL COVERAGE	730,319	606,014	625,998	(124,305)	-17.0%	19,984	3.3%
-----	-----------------	---------	---------	---------	-----------	--------	--------	------

Like the health benefit, the City Charter requires employer's contribution to cover dental insurance costs for current and retired City employees and their dependents. The rate is reviewed and determined annually by the Health Service Board. Dental cost per employee paid by SFMTA annual budget averages \$1,503 per employee in FY 2015 and \$1,542 in FY 2016.

017	UNEMPLOYMENT INSURANCE	97,766	94,229	106,482	(3,537)	-3.6%	12,253	13.0%
-----	------------------------	--------	--------	---------	---------	-------	--------	-------

Mandated by the State of California, the City must budget for unemployment insurance coverage. The rate is set as a percentage of the annual salary cost, with 0.25% for FY 2015 and 0.27% for FY 2016.

The San Francisco Employees' Retirement System is funded on a cost-sharing basis with a combination of employee contributions, employer contributions, and investment earnings from the retirement fund. This line item reflects the cost of contributions the City makes as the employer to the retirement fund for positions budgeted in this organizational area, including any pick-up portions of the employee retirement contribution based on established labor agreements.

Reviewed and approved by the Retirement Board, the FY 2015 and FY 2016 employer contribution is set in three tiers with different maximum salary rate thresholds resulting in different retirement rates to be paid by the city. The employer contribution rate for majority of the Miscellaneous Employee unions falls within the middle tier of 22.43% of the annual salary cost in FY 2015 and 19.48% in FY 2016.
