Cost Recovery Fees

All fees in this exhibit are calculated based on a cost recovery methodology, which includes SFMTA known retroactive and prospective costs (does not include unknown labor increases), except for fees associated with automobile towing and storage which, in addition to SFMTA cost recovery fees, include the towing and storage fees charge by the SFMTA's towing contractor.

**Neighborhood Parking Permit Program** (including Residential, Visitor, Business and Commercial Permit Fees): The Neighborhood Parking Program was established in 1976 to provide greater parking availability for City residents and merchants by discouraging long-term parking by non-residents or commuters. Presently there are 28 residential parking permit areas in the City plus two additional permit areas that are currently under discussion. These parking permit fees are a cost recovery fee and proposed increases will offset the actual costs for enforcement and other expenses associated with the administration of the Neighborhood Parking Program.

**Color Curb Program:** Residents, organizations, and business owners apply for various colored curb parking designations as authorized by the California Vehicle Code. These zones include white zones (passenger loading and unloading), green zones (10-minute parking), meters in green zones, red zones (no parking), and yellow zones (freight loading and unloading). The program's costs are funded by fees charged to the requestors. Yellow zones have historically not had a fee associated with them. Yellow zones are often initiated by Parking and Traffic to reduce double parking which may delay Muni buses and LRV trains. The yellow zones generally serve the entire block and not a specific business. Some taxi and tour bus zones are assessed white zone fees when the zone serves a hotel or identifiable commercial entity or beneficiary
